Agenda

- Review the key questions
- Short presentations by each panelist
- Active discussion of the key questions
- Q&A with you, the audience

Key Questions We'll Answer

- What is the role of an IP PBX in UC Applications?
 - Where does it lead, follow, and/or interoperate?
- How can you enhance your current PBX for UC?
 - What elements can you use as is? What do you add?
- How can you equip your new IP PBX for UC?
 - What are the “must have” elements of the new system?
- How should UC plans affect IP PBX plans?
 - Considering sequence, timing, investment and ROI?
- What is an example of UC Success with IP Tel.?
